

Seraph

Feature Pitch

What is *Seraph*?

- *Seraph* is a heroic fantasy adventure/simulation game designed as a console experience with a mobile companion app.
- **Explore** a procedurally developed world with a small squad of adventurers.
- **Engage** enemies in tactical combat scenarios.
- **Develop relationships** with adventurers and civilians.
- **Manage** the expansion of your hometown and its relationship with other settlements.
- **Cooperate or Compete** with friends in a shared-world setting.
- **Stay Connected** to your world with the mobile companion app!

Explore

- Discover the true history of the Seraphs, an ancient collective shrouded in legend.
- Lead a small team of adventurers on a variety of missions.
- Seraph's approach to world transformation offers a unique, yet familiar experience to repeat players.

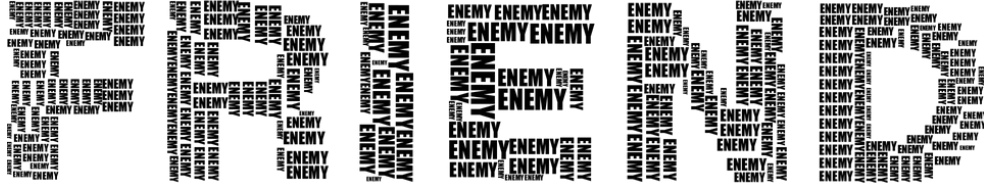

Engage

- Direct your squadmates and exert tactical control over any situation.
- Eviscerate your enemies firsthand with an array of combat styles and abilities.

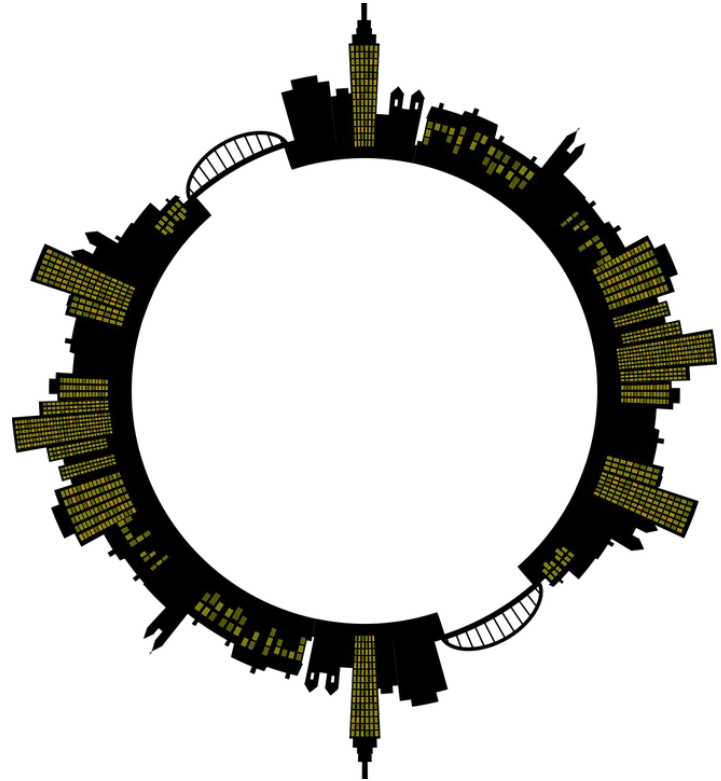

Develop Relationships

- Watch relationships blossom (or collapse) as you become better acquainted with your band of adventurers.
- Recruit more adventurers as your squad's reputation evolves.

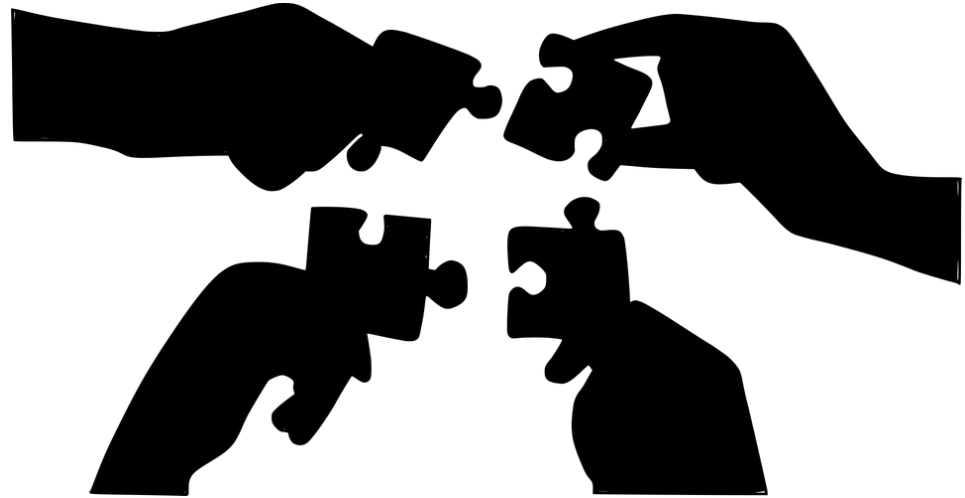

Manage

- Guide the development of your hometown and squad members.
- Choose how your town interacts with other towns and factions.

Cooperate or Compete

- *Seraph's* shared world settings allow players to manage their towns **independently, cooperatively, or competitively.**
- Embark on an **expedition**, a multi-squad operation requiring tight execution on multiple fronts.
- **Exchange squad members** with your friends- but make sure you consider their needs as well!

Stay Connected

- *Seraph's* mobile companion app allows you to engage in many of the features offered by the primary title.
- Currently, City and Squad management are the primary features planned for the mobile app.
